“Drawing from extensive experience in the civil engineering and building industry, we have positioned ourselves as a reliable and innovative player in the construction sector.”

INTRODUCTION

TWL CIVIL AND BUILDING CONSTRUCTION is a black owned company which was established in 2014 based in Musina Limpopo.

We specializes in civil works, building maintenance, supply of goods and materials, renovations and transportation.

This initiative was based on vast years of experience in the civil engineering and building industry.

We have 25 employees which are 7 permanent, 18 are casuals. We are currently busy with bulk water supply project.

Our commitment to excellence, safety, and community development sets us apart, making us the preferred choice for construction solutions

TWL CIVIL AND BUILDING CONSTRUCTION is more than a construction company; we are partners in progress, driven by a vision to build a better, more sustainable future.

OUR VISION

The vision of **TWL** is to grow to be a well established company and be a preferred servicer provider which will not be only focused on construction only but render logistics services as well.

This will be achieved by providing sustainable work opportunities to people of different ethnic group. Other than job creation, we believe that we can rehabilitate disadvantaged youth, make them stay away from immoral habits and criminal actions.

While educating people, we are compelled to delivery quality and value in the building, infrastructure and logistic sectors through integrated solutions, products and services.

OUR MISSION

- We constantly deliver a high quality service to clients.
- Ensure client satisfaction and the improvement of the community's living conditions.
- Implement projects within the budget constraints or/and agreements in a way that will ensure sustainability in the long term.
- Implement projects in an effective, efficient and gainful way while at the same time fulfilling the needs of the end users and the vision of the client

OUR CORE VALUES

At **TWL Civil and Building Construction**, our core values guide every aspect of our business operations, reflecting our commitment to excellence, integrity, and sustainable growth. These values define who we are and shape our interactions with clients, employees, and the communities we serve.

INTEGRITY:

Upholding honesty, transparency, and ethical conduct, we build trust and credibility.

EXCELLENCE:

Striving for the highest quality in every aspect of our work, we consistently deliver superior results.

INNOVATION:

Embracing creativity and change, we seek new solutions and drive progress in the construction industry.

SAFETY:

Prioritizing the well-being of our people and communities, we maintain a secure working environment.

COMMUNITY ENGAGEMENT:

Giving back through responsible practices, social initiatives, and community partnerships.

ENVIRONMENTAL STEWARDSHIP:

Committing to sustainable practices, we minimize our ecological impact and promote environmental awareness.

CLIENT SATISFACTION:

Our success is measured by exceeding client expectations through open communication and a client-centric approach.

EMPLOYEE EMPOWERMENT:

Valuing our team's skills and dedication, we empower employees through training, development, and a supportive work culture.

LABOURER

LABOURER

LABOURER

TWL Civil and Building Construction not only achieves business success but also contributes positively to the broader community and environment.

TWL EXPERTISE

TWL CIVIL AND BUILDING CONSTRUCTION excels in providing a diverse range of services with expertise in:

TRANSPORTATION:

Efficient and reliable transportation solutions for the seamless movement of materials and equipment.

WATER & SANITATION:

Specialized services in water infrastructure development and sanitation projects to enhance community well-being.

BUILDINGS & STRUCTURES:

Comprehensive construction services covering buildings and structures, ensuring durability and functionality.

PROJECT MANAGEMENT:

Proven project management capabilities, ensuring efficient planning, execution, and successful completion.

WATER & WASTE WATER MANAGEMENT:

Expertise in managing water resources and waste water systems to promote sustainability and environmental responsibility.

ENVIRONMENTAL:

Commitment to environmentally conscious practices, including eco-friendly technologies and sustainable construction methods.

COMMUNITY PLANNING & DEVELOPMENT:

Engaged in community-centric projects, focusing on planning and development to enhance overall community quality of life.

STORM WATER MANAGEMENT:

Specialized solutions for effective stormwater management, mitigating potential risks and ensuring environmental compliance.

GENERAL SUPPLY:

Facilitation of the procurement and supply of quality construction materials and goods for diverse project requirements.

UPLIFTING & EMPOWERMENT OF LOCAL COMMUNITIES

Regards affirmative action and the provision of opportunities to local community members and historical disadvantaged individuals in all aspects of a project as very important.

Support assistance and training of Historically disadvantaged individuals, not only to enable

appropriate representatives from local communities to take part in the activities of our own company but also to assist them with training and capacity building during construction.

Assist with the upliftment and empowerment of the community by creating business opportunities during the implementation of projects, thereby improving quality of life.

CORPORATE & SOCIAL RESPONSIBILITY

PEOPLE

Imply fair and beneficial business practices toward labour, the community and region in which it conducts its business.

PLANET

Requires sustainable environmental practices. We endeavour to achieve this by carefully managing its consumption of energy and non-renewable resources.

PROFIT

Is the bottom line profit required to ensure the success of the business, but also includes the lasting economic impact the organization has on its economic environment.

TWL Civil and Building Construction is your trusted partner, leveraging a wealth of experience and a skilled team to deliver excellence across various domains.

HEALTH & SAFETY

Health and Safety is our first priority in all our sites. Proper healthy and safety training of all employees is conducted by a qualified health and safety officer prior commencement of any works on construction site. Hygienic environment is always maintained by providing clean drinking water, refuse bins and clean toilets.

A comprehensive first aid kit and a fire extinguisher are always present on site with their locations clearly marked for easy access. These are inspected, maintained and kept in a working order by the health and safety officer

In summary, TWL Civil and Building Construction is your reliable partner for a wide spectrum of construction services. With expertise in transportation, water and sanitation, buildings, project management, and more, we are committed to excellence, integrity, and community impact.

Our core values guide us in delivering top-notch results, and our skilled team ensures efficiency and reliability. From managing water resources to stormwater solutions, we cover diverse project needs.

Choose TWL for a dedicated partner in construction, committed to client satisfaction, sustainability, and community development. Thank you for considering us, and we look forward to contributing to the success of your projects
